

What your tailor?
Get the right tip on what to wear.

Greys in fancy patterns and Blue Serges will be the cloths for this season.

Until one has seen the new Spring samples of Ed. V. Price & Co., the Chicago Merchant Tailors, they have no conception of the variety of shades and assortment of patterns that can be designed in these fabrics.

Greys in all shades of plain weaves, in stripes, in fancy silk designs. Greys in over-plaids, shadow plaids, club checks, in endless variety.

Blue Serges in broad, medium and narrow weaves. Blue Serges in Novelty designs, over-plaids, stripes and checks.

Not a dozen or two but five hundred styles to select from. The choice fabrics from the leading looms of the world, gathered together by this enterprising firm of Merchant Tailors, from which we can make you beautiful suits tailored to fit your form for \$20 to \$35.

Don't be the last man in town to put on new clothes.

Call and see fabrics 5220, 5262, 5280, 5297.

Mr. Shea, representing Ed. V. Price & Co., is with us to-day. Come in to see the beautiful line of woollens we are showing for spring.

Tersely Told

Mrs. William Conley, of Redman, Ill., who has been visiting her parents, Mr. and Mrs. William Hyres, of this city, has returned to her home.

United States Deputy Marshal William Ray, who was assaulted last week is reported as being much improved, and it is expected that he will be able to leave his room by the end of the week.

The maximum temperature at Pensacola yesterday was 82 degrees at 1:45 p. m., while the minimum was 68 degrees at 5 a. m. Last year on the same date the maximum was 70 degrees and the minimum 62 degrees.

Dr. C. B. McKinnon, a prominent physician of Milton was a visitor to Pensacola yesterday, and was warmly greeted by his many friends in this city. He returned home in the afternoon.

The Civil Service Commission announces that an examination for the position of clerk and carrier in the Pensacola postoffice will be held on May 22, 1907. As the last session of congress made considerable appropriation for the increase of salaries of postal clerks, it is probable that a number of competent young men will look into the particulars. All information regarding salaries, application blanks, etc., can be obtained by applying to the local secretary at the postoffice.

A. Looy, who conducts a retail grocery store on North DeVillier street, was badly injured yesterday morning about 11 o'clock, when a horse which he was driving became frightened and ran south on Palafox street. The wagon collided with another vehicle near the corner of Zaragoza and Palafox streets, and he was thrown to the pavement and rendered unconscious. He was taken to the M. & O. clothing store, where he revived in about ten minutes. Besides a very painful cut on the head his shoulder bone is probably broken.

Your Grocer Can Get It.
Tell him you want Blue Ribbon Vanilla, and that you must have it. There is none other half so good.

BY RAILROAD
TO MATTERHORN

Daring Engineering Project
Attracting Attention in
Switzerland.

Special to The Journal.
Geneva, Apr. 8.—A daring scheme is attracting much attention here. Two engineers well known for their work in designing mountain railroads, have applied to the federal council to grant them a franchise to construct an electric railway from Zermatt to the top of the Matterhorn. The scheme consists of two sections—the first a cog and ratchet track from the Viège-Zermatt depot to the Lac Noir (2,518 metres) tunneling through the Hoernli peak; the second to comprise two funiculars from the refuge station to the summit (3,822 metres), constructed in a tunnel with a gradient of 85 to 90 per cent. It is proposed to construct buildings at the summit sufficient to accommodate a certain number of visitors, and to include, if feasible, a compressed air room for persons who suffer from mountain sickness. It is alleged that it will require four years to build the railroad, which will cost 10,000,000 francs. The journey from Zermatt to the summit will require 1 hour and 50 minutes and cost 50 francs, now the ascent takes twenty-four hours, and the charges for guides amount to 180 francs. Alpinists are bitterly opposing the scheme, on the ground that it would make one of the finest and most difficult peaks in Switzerland accessible to every tourist and the Friberg and Berne sections of the Alpine Club have issued appeals for public support to oppose it.

BLACKBURN ISLANDS FOR THE ISTHMUS

Special to The Journal.
Washington, Apr. 8.—Ex-Senator Blackburn, of Kentucky, sailed to-day for Colon, as a member of the Isthmian Canal Commission. He has been selected as chief of administration of the canal zone, this place being analogous to that of governor, which was held by Mr. Magoon. Since Mr. Magoon left Panama the administration has been entrusted to Richard Reed Rogers, counsel for the commission, but Mr. Rogers' administration proved a failure, consisting chiefly of upsetting the ably conceived and carefully executed arrangements of Governor Magoon, and Senator Blackburn will take the place at a salary of \$14,000 a year.

BRAZIL CONTRACTS FOR BATTLESHIPS

By Associated Press.
Rio de Janeiro, Apr. 8.—Under the modified contracts of the government, three battleships of 18,000 tons each will be built by the Armstrongs, and three cruisers, three torpedo boat destroyers and a number of other vessels for the navy will be constructed by another British firm. The programme calls for twenty-seven vessels.

STATE AID REQUESTED FOR EIGHT SCHOOLS OF COUNTY

And if Granted This Number
Will Have Terms of
Eight Months.

IN ADDITION TO THOSE WHICH
ALREADY HAVE SCHOOL TERMS
OF THIS PERIOD—REGULAR
MONTHLY MEETING OF THE
BOARD HELD YESTERDAY.

The Board of Public Instruction at its regular monthly meeting yesterday requested aid from the state for eight schools of the county, seven of which are located in the city and one in the country. This aid has been requested under provisions of chapter 5381, which provides that those schools which have attained a per centage of 80 per cent. in attendance during a term of six months will be assisted for a period of two months, thus making an eight months term.

The legislature at its last session passed this act and appropriated the sum of \$50,000 annually for the assistance of schools which complied with the act in regard to attendance. The school board in making application for state aid believes that the eight months terms for these schools will be of much benefit to the pupils and will encourage other schools of the county to endeavor to secure a term of like duration. This is in addition to public school No. 1 and other schools of the county which are already being assisted by the state.

But little other business of importance was considered at the meeting yesterday. Chairman Anderson was instructed to have a survey made of lot No. 30 on which is located school building No. 29, which is to be sold.

The pay roll for the month of March, amounting to \$7,165.33 were approved and vouchers ordered drawn.

Gretna Himes, colored, was appointed supervisor of school No. 52 and J. E. Sheppard, colored, was appointed supervisor of school No. 54.

REORGANIZING LAND OFFICE

Work Taken Up By Direction
of President and
Secretary of Interior.

Special to The Journal.
Washington, Apr. 8.—By direction of the president and the secretary of the interior the commissioner of the general land office has taken the work of reorganizing the field and office force under his control. In order to secure greater efficiency in the field work of the special agents the commissioner has found it advisable to re-district the public land territories, changing the lines so that for the most part the field divisions have been enlarged, giving greater territory to the general chiefs. The special agents will be detailed to the several chiefs of the several divisions in the field, each chief being held responsible for the efficient performance of all work in his division. The chief will also be required to call for reports respecting the conduct of local land offices and the offices of the surveyors-general in their respective divisions. It is the purpose of the commissioner to so detail and concentrate the force as to keep the department advised of the principal land frauds and illegal efforts to acquire title to the public lands and secure evidence to convict such offenders of such offenses. The principal frauds affecting the public domain involved the acid timber and coal belts, and great vigilance is necessary to keep these lands from being wrongfully appropriated. The policy adopted by the department does not mean, however, that the agricultural regions will be omitted from surveillance by the agency forces, but it desired to relieve the honest settler in these regions from the aggravation resulting in general suspensions and field investigations, which cannot now be made without a larger force of special examiners.

TAFT CONFERS WITH INSURGENTS

By Associated Press.
Havana, Apr. 8.—In a long conference with leading insurgents today Secretary Taft refused to name a date for the withdrawal of troops from the island. He also said it was impossible to hold an election until a complete census of the island had been taken, which will occupy fully four months.

Taft received other delegations during the day and referred certain questions to Governor Magoon whom, he said, would be given greater powers than at present delegated to him.

FORGED NAME OF PROMINENT CITIZENS

Negro Named Chas. B. Oliver
Is Alleged to Have
Worked Swindling
Game.

Chas. B. Oliver, a negro, formerly employed as a waiter in a restaurant, was arrested Saturday night upon the charge of forgery and uttering forged paper, and is now held in jail in default of a bond of \$1,000.

The negro, it is alleged, was working a very slick swindling game with prominent merchants as his victims, and it was only through the fact that he was the driver of a delivery wagon became suspicious that the negro was detected.

Early Saturday night the negro commenced his work, first calling upon T. H. Lannon & Co. over the telephone and representing himself as a prominent business man. He told Mr. Lannon to send some articles to the home of F. C. Brent and also to send change for \$10 as he desired to pay for the articles at once. This was done and the party delivering the goods was met at the gate by a negro who gave him a check drawn for \$10. This check had the name of Mr. Brent attached, and in exchange for the delivery man gave the negro the goods and the change sent by Mr. Lannon.

The same scheme was worked and checks given purporting to be drawn by Thos. C. Watson and Jno. S. Bell & Sons. The last attempt was at the home of Mrs. Fisher, where the driver of the wagon of the John White Store became suspicious from the manner in which the man acted and refused to give him the goods and money. When he did this the man, who represented himself as being in the employ of Mrs. Fisher, asked the driver to say nothing of the matter, and this was reported as soon as the driver reached the store.

Deputy Sheriff Sanders was immediately notified and given a description of the man, and in a few hours had arrested Oliver.

The negro entered a plea of not guilty when arraigned and was committed to jail yesterday, but the driver for the John White store stated that he identified him as the man who he had found in the yard of Mrs. Fisher and who offered him a check in exchange for the goods ordered and the money which he had been given.

THE GOOD ROADS ASSOCIATION

Important Meeting of the Newly Organized body is to be Held
This Afternoon.

An important meeting of the Escambia County Good Roads Association is to be held this afternoon at 4 o'clock in the rooms of the Chamber of Commerce, and it is requested that all members be in attendance. There will be many matters regarding the plans for road work discussed at this session, as well as reports from committees appointed, and as the good roads movement is now well under way and meeting with much encouragement, it is anticipated that the session will be an interesting one.

Fire at Galveston.
Galveston, Apr. 8.—Fire this afternoon destroyed three business buildings and their contents, involving a loss of one hundred and seventy-five thousand dollars.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well there will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest test of its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root sent free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

AMUSEMENTS.

"The Gingerbread Man."
It is possible to have a rattling good entertainment spoiled by ineffective interpreters, but happily nothing of the sort has endangered "The Gingerbread Man," the fanciful fairy-tale that the Rice & Weaver Company will present here Wednesday

Grace Belmont with "The Gingerbread Man" Wednesday night.

night, Apr. 10. Grace Belmont, Mae Phelps, Homer Lind, Nellie Lynch, Ben F. Crinnell, Ross Snow, Eddie Redway, W. H. Mack and Will Donnelly are seen in the principal characters, and a beauty chorus of 70 fill in the many stage pictures. "The Gingerbread Man" was one of the biggest hits in New York last season.

"The Old Homestead."
That the quaintest, most original and most attractive of all the rural plays "The Old Homestead" will meet with its usual warm welcome here goes without saying. The pioneer of rural dramas has stood on its own merits for twenty-one years, and yet

Anita Fowler in "The Old Homestead" Tonight.

its power to attract and please audiences seems not to lessen in the slightest.

Every child gets his first dip into the joys of the theatre through the medium of "The Old Homestead," for every parent has seen and enjoyed the wholesome fun of this old play and wants his children to do the same. To old and young alike it is a well-spring of pleasure.

The company playing "The Old Homestead" this season was selected carefully by Mr. Thompson himself and each individual character is said to be played with the same natural art that made Mr. Thompson himself one of the famous men of our stage. "The Old Homestead" will be played here tonight.

"Hearts and Diamonds."
All people everywhere at all times, since the day of Adam, have been interested in the game of hearts and diamonds.

It will be played in a most satisfactory manner at the opera house April 12, Friday, by a large and comely cast—eleven besides the dog.

Come and enjoy it. Given for benefit of United Charities, under direction of Miss Beatrice White.

Mrs. Jarley's Wax Works.
An entertainment such as Mrs. Jarley's wax works, has not been seen in Pensacola for thirty-three years. Very few, if any, of her residents will recall the former display, but for a pleasing exhibition it is said to be almost without a rival.

Its subjects are selected from the history, romance and mythology of every nation. The characters may be recognized at a glance and their personal peculiarities are exhibited in lifelike realism. Even the movements are reproduced with remarkable fidelity.

The exhibition is to be given at the library Thursday night, St. Katherine's Episcopal church is the beneficiary. As the entertainment will please both old and young and the object is so commendable it should command a liberal patronage. Admission 15 cents and 25 cents. See advertisement in another column.

Graphophone Concert.
Lovers of fine music will have an opportunity, tonight, to hear the most noted singers and musicians, at the

S.S.S. PURIFIES THE BLOOD

There is no other part of our physical system upon which so much depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform their different duties, because they are supplied with nourishment and healthful properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, blotches, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc. because it purifies the blood. Book on the blood and medical advice free.

TWO GAMES AT FORT BARRANCAS

Twentieth Company Defeated Ninety-First and Orioles Beat the Twenty-Second.

Two games of baseball were played at Fort Barrancas Sunday afternoon and enjoyed by a large number of spectators, not only from the post and Warrington, but also from the city.

The first game was between the Twentieth and Ninety-First Companies, the latter of Jackson barracks near New Orleans, and resulted in a victory for the former by the score of 6 to 1.

The second was between the Orioles and Twenty-Second company and the former was victorious by the score of 7 to 4.

Both games were hard fought and well played.
